

Stomach Trouble Solved

Most stomach troubles are not diseases. The stomach is simply weak. Tired out. The right kind of a tonic is what is needed. A few meals, well digested, will furnish natural strength. That is what a tonic will do for you. It will start the stomach going right. Then the stomach will take care of itself.

PE-RU-NA Good the Year 'Round

Always Ready-to-Take There is no use of writing a new prescription every time a remedy is needed for a weak stomach. No use whatever. The old, well-tried remedies, put up on purpose for such cases, are a great deal better than an off-hand prescription. Peruna is the remedy that people have relied upon for a great many years. It is ready to take, composed of pure drugs, of uniform strength and composition. Not an experiment. Peruna is a substantial, household remedy, with forty years of splendid history behind it. In buying Peruna you take no risk. You know what you are getting.

Tennessee has been boss-ridden, politically, for many years and these bosses, a vast majority of them, have come from the cities of the state that have been openly and notoriously violating laws enacted by the legislature of the state. They became so bold in their violations that decent people all over the state felt outraged and demanded a change in the management of things. The investigations and ousters at Nashville and Memphis are natural results of the high handed systems these bosses have used to manipulate every branch of the state's government possible and the government of counties and municipalities thruout Tennessee. Gov. Rye saw the evils and likewise saw the demands and desires of the vast majority of the people of the state and called the legislature to consider ousting certain officials which the ouster law could not reach. And now he is being attacked and opposed by these city bosses and their adherents who are leaving no stone unturned to encompass his defeat for re-nomination and re-election. But these ringsters have gone too far in their manipulations and Gov. Rye has the endorsement in this act of the law-abiding citizens, democrats and republicans alike, and the city ringsters must take their medicine, see Rye successfully re-nominated and see the laws faithfully enforced in the cities as they are in most of the country counties. And those counties where there have been violations which the officers have overlooked will have a new set of officials who will at least make an effort to enforce the laws.

This means that a good many kinds of semi-news advertisements that we have been publishing free must be paid for hereafter or be left out. Heretofore we have donated freely to many cases, our liberality has been accepted as a matter-of-course, and rather arbitrarily demanded. We have been giving away not less than \$1,000.00 a year in free advertising, and then when collections were taken up, we have come down like other people with the cash. We are not now complaining. We are simply stating a bold fact when we state the high cost of publishing has reached a point where the free advertising must be cut out, if we are to keep going on our old rates. Hereafter, all notices of entertainments, where admission is charged, must be paid for. All reading notices primarily intended to benefit some person or firm in a business way, except such notices as are made voluntarily by the publishers themselves, are advertising, and must be paid for. Programs asked to be published in advance of entertain-

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

con Tuesday that he could count from his books four or five hundred dollars he had paid to officers in his district for fines and costs in craps raids where his negro work hands were caught, and the records of the county do not show any such sums turned in to the trustee, he says. If this is all true there should be some way of stopping it and it deserves investigation.

Fayette county has suffered, along with every other county in the cotton states, for years past for the reason that her farmers have paid little attention to their seed for planting. Corn has been taken from the crib with little care as to its real quality and cotton seed from the gin, run of the crop, the first and best being sold nearly every year, and the crop gradually becomes less in consequence. Now and then a farmer has selected his seed corn in the field, taking ears that are as near perfect as they could be found and only from stalks that were of correct type and the result has been a fine increase in the following year's yield. The same is true of cotton seed for planting. Last year a variety of long staple cotton was raised near Somerville which made almost a bale to the acre and sold in this city at about eighteen cents per pound. The yield was large and the price high. These examples go to show that there is a splendid profit in planting nothing but the best of seed. We breed from the best live stock we can get but we too often think any seed that will germinate will make a satisfactory crop. A small outlay in better seed will pay many times over in one crop.

So great has become the interest in increasing the efficiency of the home vegetable garden in Germany during these crucial times of that country that the plans have been heralded abroad and published in the daily papers thruout the world. There is every reason to commend and copy the German idea of thrift, and this step in the most crying time that country has ever seen lays particular stress on the importance of the home garden. We, in the South, are in an almost equal crisis and we need to take every step possible to make our livings at home. The increase in the efficiency of the garden crop is one of the ways and one of the easiest and best to bring about cheaper and better living. It is now the right time to start the garden for this year, a little earlier would have been better, but every farmer and town resident in the south should have a good garden this year, in order that his family may have a CONSTANT supply of fresh vegetables, for unless they are grown at home they will not be had—we can't buy if we wanted to and would not if we could buy such variety and quantity as the family needs. A bigger and better home garden for every home in Fayette county is our slogan this week.

THE FAYETTE FALCON

W. T. LOGGINS, EDITOR AND PROP.

Entered at the postoffice of Somerville, Tenn., as second-class matter.

Trustee.....S. B. Reames
Sheriff.....J. T. Jordan
Tax Assessor.....J. R. Bradsher
Register.....J. W. Matthews
United States Senator.....K. D. McKellar

As one of the effects of the European war on the newspaper in this country, a salesman in The Falcon office last week asked us \$15 per pound for a certain kind of ink which we have been buying from him at \$2.25 per pound.

Another immense drainage project is mentioned recently and is being undertaken by a section of Crittendon county, Arkansas. That county has already some of the most extensive drainage districts in the country, and these have worked so successfully that others are being planned so as to drain the surplus water from other thousands of acres of that rich land. And every where these canals are made the redemption of swamp lands makes the projects immensely remunerative to the sections drained. Earle, Arkansas, has sprung from a mere village five years ago to large and prosperous town, and it owes its growth to the success of drainage by canals, for it is located right in what was a few years ago nothing but a swamp. The levees keep out the high waters and the drainage canals take away the surface water from her rich lands and her farmers make tremendous crops of cotton, grain and hay on these redeemed lands, which before the building of the canals were swampy and worthless. Fayette county has many acres of just such lands.

Since the appearance last week of the editorial mention in The Falcon of the practice of some of the district and county officers in this county collecting fees they were not entitled to other cases have been called to our attention and here as elsewhere there seem to be some who are making their living by this dishonest practice. All cases reported deal with criminal charges in minor cases, and if reports be true, there are thousands of dollars each year collected in so-called costs from illiterate and ignorant negroes under the guise of law. Whether the charges are true The Falcon does not pretend to say, but there are lots of such charges. One man told The Fal-

ments are pure advertising and must be paid for. "Resolutions of Respect" must be paid for. The paper publishes notices of death and all news concerning demise, Obituary notices not to exceed 100 words will be published free, all words exceeding 100 will be charged at 1 cent a word. "Cards of Thanks" will be published for 50 cents where they do not exceed 60 words. All words over 60 will be charged for at 1 cent a word. Count words and send payment with copy. WE WANT ALL THE MEWS WE CAN GET.

The above clipped from the Humboldt Courier-Chronicle hits the bull's eye. Last week The Falcon published nearly four dollars worth of this semi-news advertising of affairs where charges are made for admission. We have always done this free but the changed condition of things and the enormous increase in the demands along this line has forced us almost to the same plan the Humboldt paper has taken. It is the position of every newspaper in the land.

Cut Your Store Bill Down One Half

Tens of thousands of farmers as well as town and city folks cut down their store bills one-half last year and saved money in spite of generally short crops and reduced wages.

Absolutely millions of dollars were saved and countless families lived better than ever before in the face of the cotton crisis and general business depression.

How were these burdensome store bills cut down? By the real money-saving power of good home gardens, rightly planted and kept planted and tended through the season.

Hastings 1916 Seed Catalogue tells how to cut store bills down; tells about garden and farm seeds of kinds and a quality that cannot be bought from your merchant or druggist. It's full of garden and farm information. It's free if you ask for it. Write for it now. H. G. HASTINGS CO., Atlanta, Ga.—(Advt.)

CHICHESTER'S PILLS

THE DIAMOND BRAND. Ladies! Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold wrapper. Take one before each meal. They are pure, gentle, and safe. Ask the CHICHESTER PILLS. BOTTLED BY DRUGGISTS EVERYWHERE.

In order to stimulate the growing of better cotton in Fayette County this season, Mr. H. F. Mathis, the local representative of Messrs. J. F. Mathis & Co., cotton buyers of Memphis, Tenn., offers a prize of

\$50.00 IN GOLD

to the man who raises the most valuable bale of cotton in Fayette County.

The cotton will be judged as to the grade and as to the length and strength of the staple, by the best experts obtainable.

The size of the piece of land required to grow this bale of cotton will also be taken into consideration, as you can readily see that a bale of cotton raised on 1 acre and bringing 10 cents per pound is more valuable than a bale bringing 20 cents per pound which requires 3 or 4 acres to raise.

The only conditions you have to observe to obtain this award are

1. You must be a resident of Fayette County.
2. You must fill out a blank which you can obtain at the office of The Falcon stating the size of the land on which your bale was raised.

The \$50.00 will be awarded on Christmas day and the winner's name announced in The Falcon.

Get in the swim—you can't lose. If you don't win the prize you have made more money for yourself by planting better seed and giving your cotton more attention.

Are YOU Going to make an Attempt to Win the \$50.00?

If you are you will have to plant better seed.

We have a seed which made a *Bale to the Acre* last year on land four miles from Somerville, and brought as high as *18 1-2 cents per pound* on the Somerville market. We now have had this seed run through a culling machine, and offer you a seed both hand selected and culled by the most modern culling machinery.

Does not that look good to you? Don't accept a substitute for this seed which somebody tells you is just as good and which he can sell you cheaper. *There is only one best and that is always the cheapest.*

Buy your seed now and smile next fall, for whether you get the prize or not you will make money by the effort. You can buy these from
